

The screenshot shows the DataCamp JupyterLab interface. The notebook is titled "Data preprocessing.ipynb". The left sidebar shows a file explorer with the following files: "sample_data", "Crude Oil Prices Daily.xlsx", and "archive.zip". The main area displays a code cell titled "Importing the Dataset" with the following code:

```
df = pd.read_excel(r'/content/Crude Oil Prices Daily.xlsx')
df.head()
```

Below the code, a preview of the data is shown as a table with columns "Date" and "Closing Value". The table contains 5 rows of data:

	Date	Closing Value
0	1986-01-02	25.56
1	1986-01-03	26.00
2	1986-01-06	26.53
3	1986-01-07	25.85
4	1986-01-08	25.87

The bottom status bar shows "Disk" usage and "85.17 GB available".
